Places Visited

Pevensey Castle

With a history stretching back over 16 centuries, Pevensey Castle chronicles more graphically than any other fortress the story of Britain's south coast defences. Beginning in the 4th century as one of the last and strongest of the Roman 'Saxon Shore' forts, two-thirds of whose towered walls still stand. It was the landing place of William the Conqueror's army in 1066. During the century after the Conquest a full-scale Norman castle, with a great square keep and a powerful gatehouse, was built within one corner of the fort. In the 1250s the towered bailey wall was constructed, and soon put to the test during the great siege of 1264.

Battle Abbey

On this spot in the year 1066, the armies of King Harold and William the Conqueror clashed at the Battle of Hastings. Explore the abbey ruins and the 1066 battlefield site with Julian giving a full explanation. Enjoy the gatehouse exhibition revealing the abbey's role in the country's future, then head to the roof for stunning views of the battlefield.

Tonbridge Castle

Following the Norman Conquest, Richard Fitz Gilbert was granted land in Kent to guard the crossing of the River Medway. He erected a simple Motte-and-bailey castle on the site. In 1088, the de Clare family (descendants of Fitz Gilbert) rebelled against King William II. His army besieged the castle. After holding for two days the castle fell and as punishment the king had both the castle and the town of Tonbridge burnt to the ground. Both castle and adjoining mansion are Grade I listed buildings.

Rochester Castle

Strategically placed astride the London Road, guarding an important crossing of the River Medway, this imposing fortress has a complex history of destruction and rebuilding. Its Norman tower-keep of Kentish ragstone was built about 1127 by William of Corbeil, Archbishop of Canterbury, with the encouragement of Henry I. Consisting of three floors above a basement, it still stands 113 feet high. In 1215, garrisoned by rebel barons, the castle endured an epic siege by King John. Having first undermined the outer wall, John used the fat of 40 pigs to fire a mine under the keep, bringing its southern corner crashing down. Even then the defenders held on, until they were eventually starved out after resisting for two months. Rebuilt under Henry III and Edward I, the castle remained as a viable fortress until the sixteenth century.

Rochester Cathedral

Rochester Cathedral is England's second oldest, having been founded in AD604 by Bishop Justus. The present building dates back to the work of the French monk, Gundulf, in 1080. The Cathedral became a major place of pilgrimage in the 13th century, following the death of William of Perth, a Scottish baker who was murdered nearby. His body was brought to the Cathedral and at his shrine, of which no trace remains, miracles were reported. Modern pilgrims who journey to the Cathedral still climb the Pilgrim Steps, now worn by the many thousands of medieval pilgrims visiting the shrine, often lighting candles at the William of Perth prayer-station in front of the oratory. Visitors who journey to the Cathedral today are direct descendants of those early pilgrims.
